## All-call

August 10, 2020

Dear Families,

The Board of Education met this evening to approve the reopening plans and review documents from Summit County Public Health. As stated in the public meeting the District will make education-based decisions while Summit County Public Health and the Ohio Department of Health will make health-based decisions. The documents from Summit County Public Health dated Monday, August 10, 2020 have indicated that schools are to start online until transmission rates lower. Therefore Mogadore Local Schools will begin the 2020-2021 school year with online instruction. More information will be following in the coming weeks as to how to access the platforms, device pick up, etc.

Take care,

John Knapp
